

Info module for door station

TX_44

Specification	Order No.	Packing unit	PS	EAN
 Program-neutral	1264 00	1	18	4010337264002

Features

- Installation in a conventional flush-mounted device box.
- Fits in the cover frames of the Gira TX_44 design line.
- Modular design, allowing easy installation and expandability.
- Signal transmission and supply of the audio and video components via reverse-polarity-protected and short-circuit-proof 2-wire bus.
- Extension of the door station by an info module for display of the house number, name, or other information.
- Backlighting with LED technology, white light. Steady, clearly visible illumination is achieved using maintenance-free, energy-saving LED technology.
- Sprayed-water proof cover plate made of shock-resistant plastic.
- Inscription space can be exchanged without tools and without frame disassembly.
- Professional labelling is available from the Gira Inscription Service www.marking.gira.com or using the Gira inscription software.
