

SLC A5 Surface Deep BL 2m

14/03/2023

S40117B

Product description

The profile's integrated cover hides the light source, creating a soft lighting effect. In addition, this profile creates a significant glare reduction and a narrower beam angle.

The profile's integrated cover hides the light source, creating a soft lighting effect. In addition, this profile creates a significant glare reduction and a narrower beam angle. The profile can be installed in the ceiling or suspended from the ceiling with a specially made wire system (accessory). It can also be integrated into furniture, under wall cabinets or as lines in the ceiling and on the wall.

- Low glare due to recessed light source
- The profile gives a narrower beam angle than traditional profiles
- Can be suspended with a wired system
- Can be mounted at angles of 90° and 180°
- Distance to cover: 13 mm

Technical data

Material	Aluminium
Model	Equal sided
Height	24,8 Millimetre
Brand	SLC
Produced by	The Light Group
RAL Colour	RAL9005

Surface protection	Coated
Width	19,7 Millimetre
Exterior color	Black
GTIN	7070938065818
HS Code	76042990
